SARAH BENCH

Seating » Benches

Classic, boxy, concrete bench. Its solid form grounds the design to its environment. Its simplicity allows the landscape in which it sits to shine.

Description Sarah is a classic, iconic, boxy concrete bench, designed by Raffaele Lazzari. The solid precast concrete features white or grey granite and white or black marble stone aggregate for a touch of elegance. The form grounds the design firmly to its surrounding environment, while its simplicity allows it to blend in and let the overall space and landscape in which it sits, shine.

Made In Europe

Dimensions 2200mmW x 605mmD x 450mmH

Weight 620kg

Frame Body
Precast concrete with stone aggregate
4 options: White Granite, Grey Granite, White Marble, Black Marble

Body Finish
Sandblasted sides and polished top

Optional
Clear anti-graffiti coating

Warranty 5-year warranty. View the [warranty](#) for more details.

Lead Time 12+ weeks.

Assembly & Delivery Product supplied packed on pallets.

Lifting equipment required for receipt and placement of concrete product (by others).

Supplied with ferrules, eyebolts and caps.

Fixing Detail Freestanding

How to Specify Select your product
Select optional anti-graffiti coating

Care Instructions

Precast Concrete

Cleaning

Remove any loose surface deposits with a brush.

Regularly wash the coating using a solution of warm water and non-abrasive, pH neutral detergent solution (with low wax content).

Thoroughly rinse the surfaces after cleaning to remove all residues. You can use a sponge, a soft bristle brush or pressure water cleaners. For pressure cleaners ensure you use cold or warm water and average pressure. Rinse after with fresh water and leave to dry.

Do not use abrasive sponges, discs, or brushes.

Do not use corrosive detergents, descaling agents, or acidic components (bleach, ammonia, vinegar, abrasive pastes).

For cleaning marks or solidified substances from the surface use slightly abrasive sponges for non-stick ceramic pans, accurately and lightly treat the parts to be cleaned as above. Please check with Botton + Gardiner for advice relating to cleaning special circumstances (i.e. stains from paint, acid, etc.) as required.

Maintenance

For surfaces prone to additional wear like that used for street furniture, regular treatment is recommended (at least every 2 years) with products containing high wax content. Evenly apply the product with a soft cloth and polish with a circular motion.

Avoid the products from being placed on surfaces subject to infiltrations or stagnant water puddles.

Additional Comments

Upon request, if the product allows it, it is possible to perform polishing operations.

The finished products are treated with a revitalising varnish and, if requested, anti-graffiti treatment can be applied.
