Care Instructions

Powder-Coat

Carefully remove any loose surface deposits with a wet sponge or soft bristled brush.

Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water.

Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues.

Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.

Customisable

Made locally, custom laser cut-out designs are available to suit your project requirements that can include adding your own logo or design.

Additional Comments

Powder-coat recommendation is to use a textured or matt finish. The large flat surface areas of powder-coating can highlight imperfections or uneven surfaces when a gloss or satin finish is used.

All Botanist pieces feature a strong support structure and anti-theft security feet.

Outdoor use. Suitable for marine locations with suitable fixing hardware.
